

Hello,
We are Caroline and Filipa.
We are artists and are looking
forward to being creative
with you.

OUR TIPS:

- ENJOY SLOWLINESS
- MAKE USE OF ORDINARY THINGS
- BE CURIOUS AS YOU PLAY
- MAKE IT YOUR OWN

SPACE FOR MAKING:

- WHAT'S YOUR ART SPACE GOING TO BE THIS TIME?
- WHERE CAN YOU WORK TODAY?
- ARE YOU BACK IN THE SAME PLACE AS LAST TIME?
- MAYBE IT'S OUTSIDE, MAYBE ITS SOMEWHERE IN YOUR BEDROOM?
- HOW ARE THE CREATURES YOU MADE WITH US LAST TIME?

INVITATION TO CREATE

Companions are **people**
or **animals**

you spend a lot of time with
or travel with.

Shape and make new
imaginary **creatures**

using 3D materials.

Shape and make them
some **companions**.

Decide which companions
your creature would like
- they might want **family**

or **friends** or both?

Start shaping your **characters**.

What will they look like?

Use plasticine or playdoh, found objects,
natural elements, recycled objects

You could mix different elements together -

fallen petals can press a skirt shape
into a plasticine character...

details can be added to a character
made of **recycled materials**.
with plasticine.

Think about where you might put
your characters when they are
completed.

Where in your home would
they like to live?

Once you are
ready, think about
how they might entertain
each other?

Can you put some **music** on
and make them **dance**?

Might they **write** and **sing**
their own song?

Could they **perform a play**?

Do they tell each other
stories?

Here's another idea
if you enjoyed this:

Can
you
imagine
an
adventure

the
creatures go
on together?

You can take
them on
a physical adventure,
or draw their adventure,
or both!
